

## CONTENTS

- A two-stage sustainable production-inventory model with carbon credit demand** 96  
Y. F. Huang, M. W. Weng, C. J. Fu
- Application of a proposed additive manufacturing performance measurement system in a Brazilian industry** 109  
A. Neuenfeldt Júnior, P. Nogueira, M. Francescato, J. Siluk, S. De Paris, M. Mandlhate
- An efficient correlation-based storage location assignment heuristic for multi-block multi-aisle warehouses** 125  
Md. S. Islam, Md. K. Uddin
- Comparing sequential and integrated models in Reconfigurable Manufacturing Systems optimization** 140  
I. Barros Garcia, J. Daaboul, A. Jouglet, J. Le Duigou
- Data Normalization for Root Assessment Methodology** 156  
D. D. Trung, B. Dudić, N.-T. Nguyen, A. Ašonja
- Generative Artificial Intelligence Technology for Systems Engineering Research: Contribution and Challenges** 169  
Y. I. Alzoubi, A. Mishra, A. E. Topcu, A. O. Cibikdiken
